Canto Club To Present Program

Sunday, May 26th, 3 to 4 P. M. At

FOREST GLEN

Above is a recent picture of the Canto club—showing the members, director and accompanist.

Forest Glen has planned a series of Sunday afternoon programs for the coming summer months. The first to be presented is the Canto club. The program will be given from the Cathedral Home and amplified throughout the park area.

The entire park is open to the public daily. You are invited to visit the park and enjoy the home-like, peaceful atmosphere that is always present. The Japanese gardens are open. A walk to this part of the memorial park is well worth your while. The garden atmosphere has been maintained by rustic benches, rustic bridge and Japanese pergola. The entire park is filled with spring beauty. The shrubs, lawns, rock garden, geraniums, tulips, hyacinths and other blooming plants add tinted hues to the park. Don't miss an opportunity to visit Forest Glen.

The Rapid Accomplishments At Forest Glen---

A year ago in January the Forest Glen Memorial Park Association was organized under the direction of Mr. Robert Marshall. During this year and a half the world has experienced diversified business conditions, the most severe experiment in history, yet the Forest Glen Memorial Park has forged steadily ahead. The association has exceeded its original program and has fulfilled every promise made to section owners. In the past year and a half since Forest Glen has been created the association has

———Transferred acre after acre into a beautiful park by planting and caring for lawns, shrubs and flowers. Made lakes, gardens and constructed the Japanese gardens.

———Made every lot accessible by building miles of roadways.

———Completed working plans for a beautiful chimes tower. Work will start on this project in the very near future.

———Voluntarily set aside a generous portion of all receipts for an endowment fund and have turned this fund over into government bonds. This endowment fund is now more than half as large as that maintained by Marion county's oldest and largest cemetery.

———Completed the modern, beautiful, permanent Cathedral Home. A place where marriages, funerals and community church or musical affairs and programs may be held.

The park association promised that it would make Forest Glen a beautiful place, worthy to be the last resting place for those you love. The association has done that and more. Forest Glen is North Central Ohio's only modern memorial park—one that has received praise from thousands.

We invite you to come and see for yourself just what a beautiful, distinctive, permanent park this is. Forest Glen Memorial Park Association will continue to merit the community's faith for all time to come.

But to find out what? She wished that Guy had given her an inkling of what he suspected of his con... nection with Daphne—or the wo... men whom he fancied might be Daphne. Was it a love affair ... Alison wondered. Had he himself at one time been in love with Daph... e Sumera on the verge of marriage perhaps and had he found o... something which had made him change his mind. Much as she dis... liked and distrusted the woman her father was to marry Alison found herself hoping that that was not the truth. The idea of Guy having been in love with Daphne hurt.

Yet the more she thought of it the more likely that solution appeared. It would account for his showing no wish to meet Daphne face to face.

Mrs Sumers has left... miss... There was a faint note of rebuke in Perter's voice. She waited half an hour.

...

When the taxi stopped at last Alison came tumbling out her purse ready in her hand. She ... money into the old man's finger without waiting for change and ran up the long steps.

Bolleau Mansions was one of those huge blocks which are on the dividing line between mansions and workmen's dwellings a grim grey block with stone steps and no porter or elevator. A hurried consultation with a green notice board in the hall showed Alison that No. 13 was next door and would be a basement flat. She ran down again and hurried along the pavement was turning in towards the right door when she stopped.

London was darkening as London can in the late autumn even by half past three in the afternoon. In the basement flat that faced towards the road the lights were on, thin net curtains hardly veiling the interior.

Alison turning up the steps found herself looking down into a lighted room a sitting room furnished brightly but not expensively in modern furniture of red and black and shining chromium; a big silver divan with red shining cushions occupying the space under the window.

But it was not at the room itself which Alison stared as she stood there as though glued to the pavement. It was at the two people inside.

A man and a woman.

They were standing in the middle of the room locked in each other's arms, their eyes closed their lips clinging in a long kiss.

A slight very dark and foreign looking man with a small black moustache—and Daphne Sumers!

Alison turned suddenly upon her heel and walked away.

She walked straight down the road, her mind whirling, her heart seething with anger. It was horrible. The whole thing shocked her profoundly by its meanness—that Daphne should choose to get engaged without love was bad enough but to let another man kiss her like that.

For it had been a lover's kiss. No mere relation would greet one like that. Those two had been wrapped up in one another, lost to all the world.

What should she do?

That was the problem which faced Alison. Halfway down the Fulham Road she boarded a bus and sat there still wrestling with the answer.

Tell her father? On the face of it he ought to know. Yet to Alison scrupulously fair always there was something unfair and dishonorable about such a course. To look in a lighted window was in itself uncomfortably like overhearing a private conversation.

To use knowledge gained like ...

The Stars Say--

For Saturday, May 25

ADVERSE PLANETARY aspects seem to have major force on the affairs of this day but there are indications of a profitable journey and that a stranger may befriend. Otherwise there are signs of setbacks, postponements, vexations and worries.

Those whose birthday it is may be prepared for a rather adverse year with obstacles, vexations and worries. It would be wise to make the best of these working along lines of least resistance.

A child born on this day may be disposed to depression and melancholy. It should have an early optimistic vision instilled.

Grave Marked by Meteorite

A visitor to Claridon cemetery
may perhaps pause first at the
grave of William Swazey A
soldier of the rebellion
a great meteorite weighing 80
tons He was the first white child
born in Marion county and knew
the Wyandot and he Delaware
Indians who in the fastening of
their wares were just good friend

where he sleeps he saved a wel

crude wagons and ox teams on a
hillside to the eas of the Whet

journey from the Fen country in
England

Jesse Lude wood a future stal
wart of Claridon township was
driving one of those ox teams and
Adam Hines a soldier of 1812
still wearing the remnants of his
Continentals was in the group
ga hered to extend a welcome

Nearby the A e plot the visitor
finds the grave of Dr J W De
vore who rode the early trails of
Claridon township and with the
consent of his saddlebags carried
the heart of a true physician and
the benediction of a real friend to
every stricken household

Next comes Andrew Williams a
merchant in Claridon half a cen
tur Behind him looms the tor
of a little Weichman his grand
father who under the leadership
of Mad Anthony Wayne helped
carry cold steel in the silence of
the night to a Brit h garrison on
the heights of Stony Point on the
Hudson river Later he fought
with the grandfather of William

Married Comrades

BY ADELE GARRISON

Arrange To Along With the Lake.

and no other person knows Williams arrives

My father looked at me as if there was that in my face which expressed only the deepest comprehension of his every mood. "I suppose you have guessed that I am in love with Margaret and that she returns my affection," I said. "I suppose you have also guessed that this Goddess knot I have tied you starting Madge."

Just before daybreak We were to be well on the road by seven for we got two flat tires one of the axle nuts was missing and we spent the time and place and seeing had been losing.

No later than eight o'clock my husband telephoned me not many hours after you are right in your estimate of his habits he'll go to bed before daybreak but only just before Dad has this man Williams a car"

No that's the trouble my father said. If he had he could get here before Margaret starts But it's too late now for him to catch a train out here from New York. He lives over in Newark

Meet His Train

But not too late for me to get a train to—Patchogue at 6 I can meet him there and go him out here in time for him to go up But what about a car? Katherine and Madge are taking the big car and Katherine's roadster Of course he can take mine but it leaves us here without a car However—

I'm leaving mine here you know my father reminded him

That seems to me a splendid scheme Richard I'll get in touch with Williams at once and explain everything—in code of course—so that no one can understand what we are saying When shall I tell him to meet you"

Suggests Police Guard

The last train from New York I'll look it up later That will give me time to get you off sir Tell Williams to wait for me there if I miss And—don't you think it might be as well to ask the state police to have a man scout around here from the time you go until I get back?

Your own guards will be ample protection until then but after that there'll be no one near him Here's no real danger but I should not care to have either Mary or Madge annoyed by having to talk to Jack Leslie even at the end of a 10-foot pole

-: The :- Marry-Go-Round

BY HELEN ROWLAND

THAT BIG MOMENT

Some girls are born perfect. Others have perfection thrust upon them. But most girls have to work like the dickens at it. Especially when they're in love. Then they have to make believe they're not.

There are many methods of pretending indifference. But they all boil down to the fact that the best way to keep a man guessing is to keep him guessing. Every man wants a brave and artful lover. He wants to battle for his prize. He wants to make the most of his conquest. And he wants them not at her.

A man never knows what he really wants. So the best way to tell a man that he loves you is to make him think that he doesn't. Or is it that he doesn't want to choke them out.

Only a woman knows what long weeks of agonizing mental suggestion it takes to extract a reluctant proposal from a man. And even then you're not sure that he's not only a worried little man who has to translate it to mean.

This at least is to the advantage of the aggressive man but ever to the most brilliant of gifted lovers we're always quite foolish if we think what it was.

Ask almost any woman how her husband proposed to her and she will answer evasively or not at all. Then press her hard enough and she will tell you that he didn't propose at all. That it was all prosaic and commonplace.

Many a wife has gone all through life suffering from a secret conviction that her husband never did really propose to her. What he said (if he ever said anything) was totally different from what she had supposed was a declaration of love or a proposal of marriage that he didn't regret.

If you want to read something utterly delightful and delightfully real, Nathaniel Hawthorne's "The Scarlet Letter." It is difficult to believe that such a bright boy could ever have penned anything so positively wishy-washy as "Dimmesdale."

Darling I love you when will you marry me? seems to be the style. Charles Shaffer, Horace Shaffer, Warren Werner and Ellis Wilson.

Can All These People Be Wrong?

Millions protest the confiscation of property, the surrender of states' rights, further projection of Uncle Sam into business, and frantic attempts at social reform which are retarding recovery.

The Public Utilities Act of 1935, known as the Rayburn Wheeler Bill, if passed by Congress (1) will result ultimately in increased cost of gas and electric service to millions of customers, (2) will cause unnecessary and unwarranted losses to millions of investors in public utility securities, (3) will retard recovery, by throwing the gas and electric utilities into confusion, prevent them going ahead with construction and development programs, which can put thousands of idle men to work; (4) will represent an enormous further extension of the Federal Government into business, seizing the rights of regulation which now belong to state and local governments.

Hearings have been held on this bill before the House Interstate and Foreign Commerce Committee, and the Senate Interstate Commerce Committee. These hearings have lasted for weeks, dozens of persons have been heard. Do not take the views alone of utility executives, that this legislation is destructive and harmful.

What Do The Hearings Show?

The only persons to appear before committees in support of this legislation were government witnesses. Of the millions of people in the United States, not one individual, not a single organization, not a single group appeared in Washington before the committees to urge passage of this bill

Who Has Testified Or Protested That This Bill Is Harmful?

1 Spokesmen for the Mutual Savings Banks of the United States, interested in the welfare of fourteen million depositors in savings banks all over the country.

2 Spokesmen for the life insurance companies of the United States concerned with safeguarding the interests of the sixty million people who are holders of insurance policies

3 The representatives of the National Association of Railroad and Utility Commissioners, speaking for the Public Utility Commissions of the states, and charged with the public responsibility of protecting the customer and investor interest.

4 Those in behalf of the manufacturers of electrical equipment, operating factories in all parts of the nation — among the principal durable goods industries of the country, and large potential employers of men now out of work.

5 The President's Business Advisory Committee, consisting of leaders from all classes of business and industry — certainly men who want business to get better

6. Representatives of national business viewpoint, the U S Chamber of Commerce, the National Association of Manufacturers, The Ohio State Chamber of Commerce, and dozens of others.

7. A large majority of the editors and outstanding writers in newspapers and magazines in every part of the country On no proposed national legislation has there been greater editorial protest.

8 Utility executives, both from operating companies and holding companies — men of practical experience who have built gas and electric service until it excels that of any nation on the globe — men who favor regulation, but who vigorously oppose destruction

Can All These People Be Wrong?

Throw Your Support AGAINST This Un American Confiscation

This bill, somewhat modified, BUT STILL AS DESTRUCTIVE AS THE ORIGINAL, has been approved by the Senate Interstate Commerce Committee with practically no regard to evidence presented It may come to a vote on the floor of the Senate at any moment. Right now is the time for you to REGISTER YOUR PROTEST Telegraph, phone, or write your two State Senators and the President of the United States Tell them to use their support AGAINST this legislation that confiscates both property and rights of the people. Address yourself to Mr Franklin D Roosevelt, President of the United States, White House, Washington, D C, Senator A Vic Donahey, United States Senate Office Building, Washington, D C; and Senator Robert J Bulkley, United States Senate Office Building, Washington, D C They are your accredited representatives in Washington on this damaging legislation before the Senate They want to have your views

Average Speed of 106 Miles an Hour Is Predicted for Annual Auto Classic

Three former winners of the Indianapolis auto classic will be out to repeat in the Memorial day classic this year Wild Bill Cummings winner last year Lou Meyer victor in 1928 and 1933 and Peter De Paolo 1925 victor are among the favorites in the field of nearly 50 motor drivers entered Cummings set a new record for the 500 mile grind last year when he averaged 104 86 miles per hour The *race is worth approximately $50 000 to the winner*

By United Press

INDIANAPOLIS Ind May 24—An average speed of 106 miles an hour will be necessary to win the 500 mile race at the Indianapolis motor speedway Memorial day May 30 it was predicted today by drivers and mechanics

Wild Bill Cummins of Indianapolis holds the present record of 104 86 established when he finished in first place last year

The prediction is based largely on the fact that the drivers will have no concern this year about gasoline consumption

Cars in the 1932 Memorial day race were limited to 34 gallons It was the first time that speedway officials ever had set a limit on fuel consumption

Slowed Up Race

The drivers were worried about their fuel supply and went more slowly than they would have ridden rarely but not a single car was forced to quit for lack of gasoline In fact Cummings had 11½ gallons to spare He averaged approximately 15 miles to the gallon

The gas limit was further reduced this year to 37 gallons but the drivers know now that their cars can be adjusted to stay under the limit

Had it not been for a series of accidents in the race last year Cummins probably would have surpassed 105 miles an average All the drivers were forced to slow down for several laps while wreckage was cleared from the track

Only a few hundredths of a mile have separated the average speed in the last three races Fred Frame won in 1932 with 104 14 while Louis Meyer won in 1933 with an average of 104 86

Peter De Paolo was the first driver to average more than 100 miles an hour in the 500 mile event He won in 1925 with an average of 101 13 The speeds dropped below 100 until 1930 when Billy Arnold drove to victory with an average of 100 44

The lowest average ever turned in at the speedway was in 1911 during the first race Ray Harroun won in what was then the unprecedented speed of 74 59 miles an hour

Although a record may be set in the actual race this year it *is doubtful* whether any of the drivers will hang up a new mark in the qualifying trials

Kelly Petillo of Los Angeles won the pole position in 1 year at an average speed of 119 miles an hour But it was through an error that he set such a pace

As he drove by his pit after the first lap Petillo thought that his attendants signaled he was doing 113 Instead they had 119 marked on the board

Petillo stepped up his speed and averaged 1[illegible] miles an hour for the

Kellogg's ALL-BRAN Corrects Constipation*

An enthusiastic and voluntary letter We have a daughter who has been troubled all her life with *constipation*. About *three months ago* we discovered ALL BRAN from that day to now we have not given her any form of laxative

We have become "ALL BRAN" users, and now it is a part of our daily diet We have told many of our friends and they too are getting results —Mr and Mrs L F Pope, 662 Maple Ave, Elmira, N Y

**Constipation due to insufficient "bulk" in meals*

ALL-BRAN provides gentle "bulk" to aid regular habits It also furnishes vitamin B and iron

The "bulk" in ALL BRAN is often more effective than the bulk in fruits and vegetables as it does not break down within the body Two tablespoonfuls daily are usually sufficient If not corrected this way, see your doctor

Isn't this food much pleasanter and safer than risking patent medicines? Get the red and green package at your grocer's Made by Kellogg in Battle Creek

A barrage of extra base blows was the reception the Workers gave Huber's application as a gentle reminder one of their players had been declared ineligible. Harry Winters flashy third baseman was asked to remain out of the Silk Mill lineup until placed on the payroll.

Game Is Rout

The game picked by many fans as the best in two nights circuit play turned early into a complete rout. The Workers scored three runs in the first frame, batted completely through the lineup in the second and fifth and landed on two mound men for 15 hits.

Maynard Snyder Silk Mill hurler was touched for five hits and three runs however his longest donation of the season. Snyder aided his cause along with a home run with two aboard in the first and a double in the fifth. His circuit blow traveled into the pines in deep left center at Canfield park.

A hefty blow into the cars parked along East Center street gave A. Baldauf Weaver second baseman a trip around the bags in the third. A pretty throw in by Don Atkinson Huber second baseman caught the runner at home but Catcher Conkle dropped the ball.

Rally Cut Short

After scoring two runs in the fifth Huber's rally was cut short by a double play. Huber scored first in the third frame when Edgington reached first on a fielder's choice went to second on a passed ball and came home on O'Connell's double. The first hit off Snyder.

Gasco piled up a six run lead over the Ax Funeral Home team in the first two innings to watch the losers rally in the fifth and seventh innings. Schwaderer was knocked for seven hits while Ingram Axe hurler yielded 10 blows. Perry knocked out a homer with two on to start the Gasco scoring in the first. Two hits and an error brought Axe players a pair of runs in the fifth and again in the seventh.

Climb In Standing

Walters and Dish merit boosted their league standing with a 6 to 1 win over the Arts Hamburger Inn team at Lincoln park. Milliser Hamburg Inn pitcher was hit freely while Gorenflo gave the losers but three hit. Two of these came in the fifth frame when Knicely walked and Evers and Milliser singled.

Four runs were tallied by the winners in the second when S. Steinman walked, Gorenflo, H. Walters and Kerr singled and C. Steinman was safe on an error by Vic
